

ENVIRONMENTAL POLICY

Multistage International Limited recognises the importance of environmental management and is increasingly aware of not only global concerns but also those of our local environment. As members of the local community we also share its concerns and will make every effort to ensure that we minimise any adverse effects that our undertakings and operations may have on the environment.

Multistage International Limited will comply with the Environmental Protection Act 1990 and all other environmental regulations, legislation and approved codes of practice relating to the operations of the Company and will co-operate with and maintain good relations with all regulatory authorities and bodies.

It is the aim of this policy to protect the environment with increased emphasis on activities and locations that are environmentally significant. To achieve this Multistage International Limited will strive for continual improvement in environmental performance with the aim to :-

- Identify all environmental impacts of the company.
- Implement procedure to minimise the pollution of land, air and water.
- Continuously endeavour to reduce the environmental impact of the company's operations.
- Reduce waste and consumption of energy and natural resources wherever and whenever possible.
- Increase the use of recycled and recyclable materials.

All employees are encouraged to promote environmental awareness and strive for continual improvement to reduce the environmental impact of the company's operations. Appropriate training and resources will be provided to ensure that employees have the required skills to implement this policy. We also encourage our clients, suppliers and subcontractors to support us in achieving the successful implementation of this policy.

This policy will be reviewed annually, when circumstances indicate a change is needed or when legislation is introduced that necessitates change.
